HEALTHY BITES – EAT FRESH, FEEL GOOD

1. Problem Statement

Nowadays, many people find it difficult to choose healthy food options and prepare nutritious meals in their daily lives. They often search different websites for healthy recipes, ingredients, meal plans and healthy eating tips.

The **Healthy Bites Website** aims to solve this problem by providing a single platform where users can explore healthy recipes, learn about food categories, view daily meal plans and understand healthy eating habits in a simple and attractive way.

2. Objectives

1. To develop a simple and attractive healthy recipes website.
2. To provide information about different food categories.
3. To display easy and nutritious recipes.
4. To provide the ingredients required for each recipe.
5. To explain simple preparation methods.
6. To display daily meal plans with different food options.
7. To share useful healthy eating tips.
8. To encourage people to follow balanced eating habits.

3. Key Features

1. **Home Page:** Introduces the website with the message "Eat Fresh, Feel Good!"
2. **Food Categories:** Displays fruits, vegetables, breakfast, salads, smoothies and healthy meals.
3. **Healthy Recipes:** Provides six different recipes with images and descriptions.
4. **Ingredients:** Displays the ingredients required for each recipe.
5. **Preparation Method:** Explains how to prepare each dish.
6. **Daily Meal Plan:** Provides food suggestions for breakfast, snacks, lunch and dinner.

7. **Healthy Eating Tips:** Shares tips about drinking water, eating colorful foods and enjoying balanced meals.

8. **Navigation Menu:** Helps users easily move between different website sections.

9. **Attractive Design:** Uses soft colors, food images, recipe cards and simple CSS styling.

10. **Footer:** Displays the website name and a healthy lifestyle message.

4. Applications

1. **Healthy Food Awareness:** Helps users learn about different healthy food options.

2. **Recipe Learning:** Provides simple recipes and preparation methods for beginners.

3. **Meal Planning:** Gives users ideas for planning their daily meals.

4. **Cooking Beginners:** Helps beginners explore easy food recipes.

5. **Student Awareness:** Encourages students to learn about healthy eating habits.

6. **Home Cooking:** Provides ideas for preparing different dishes at home.

7. **Nutrition Awareness:** Encourages users to include a variety of foods in their meals.

5. Technologies Used

- **HTML5:** Used to create the structure and content of the website.

- **CSS3:** Used to add colors, backgrounds, fonts, spacing and attractive designs.

6. Conclusion

The Healthy Bites website provides a simple and attractive platform for exploring healthy recipes, food categories, daily meal plans and healthy eating tips. It helps users discover different food options and learn about balanced eating habits. This project demonstrates how HTML and CSS can be used to create a user-friendly and informative website.
